

L2: fixed length 280 mm

**002.2445 L2, fixed length 28 cm, with universal bracket**

The SmartMetals ceiling mounts fit virtually any projector and are available in a range of standard lengths. All models, apart from the shortest, can be continuously adjusted in length and include a drop-down protection, ensuring that the inner and outer tube will not part. All universal tube sets include a ball joint that can be adjusted without tools. The universal bracket and your projector can be attached to the ball joint and can be positioned to any direction. The cable duct is easily accessible from the outside and the slotted holes in the ceiling plate make ceiling mounting straightforward.

L2: fixed length 280 mm
