

ClickShare CS-100 Huddle

Wireless presentation system for huddle spaces

- **Wireless connection to central screen**
- **1 user on-screen**
- **Share from laptop, tablet or smartphone**
- **HDMI output**

Collaborate better, in small teams. Huddle spaces are creative, flexible, straightforward and intuitive spaces where you bring your own device to share, discuss, interact. Quick and easy.

That is why Barco has developed ClickShare CS-100 Huddle. With this wireless presentation system designed for spontaneous collaboration in huddle spaces, users can simply share what's on their laptop or mobile device, on the presentation screen. No cables, no set-up, no waiting to join in. Focus on what matters.

Turn huddle spaces into vibrant collaboration spaces

The CS-100 Huddle brings quick, creative content sharing to small meeting and huddle rooms. It provides your enterprise a uniform meeting experience from huddle space to boardroom. Anyone – including guests – can connect and share, no need for training. Use the ClickShare App to get the content from your device on the meeting room screen. Or order the ClickShare Button in addition to the package for enriched, straightforward content sharing.

Fit for your company

The CS-100 Huddle is a stand-alone model with an HDMI output, that allows up to 8 users to connect and, with one user sharing at a time. It can also be integrated in the company network and centrally managed, to enjoy a uniform experience from your huddle space to your boardroom. The CS-100 Huddle includes the standard ClickShare security features including encryption, login management, https and the possibility to hide the SSID of the Base Unit's wireless network.

SPÉCIFICATIONS TECHNIQUES**CLICKSHARE CS-100 HUDDLE**
