EDGE™

MEET THE NEWEST MEMBER OF AZON UV SERIES

TURBO JET INKS

UV TurboJet™ inks are specially developed to ensure vivid colors and maximum fastness on almost any material. In case of materials with extremely smooth surface texture, primer is available.

- EN 71-3 Approved
- Vivid colors
- Increased Adhesion

COST EFFECTIVE, LOW MAINTENANCE

Azon EDGE™ is carefully designed to reduce maintenance to a minimum. With Azon RIP software each print will be produced in a quality way beyond any competition, but still every aspect of the print will be optimized in order to make it cost effective.

- Low Maintenance
- Up to 2 weeks in standby mode
- Lower print cost
- Plug & play

EDGE UV CURING SYSTEM

Each Azon EDGE™ is equipped with highly durable UV curing system.

- Adjustable UV output, controlled via an LCD touch panel
- More than 10000 working hours
- High durability components
- Low energy consumption
- Cold UV LED

MADE IN EU

CONTI INK SYSTEM & CIRCULATION

Handling the inks has never been easier, fast, clean and simple. Azon CONTI™, continues ink supply, allows for the printer to be refilled with ink during the printing operations which translate to zero time loss during the refill.

- 500 ml bulks with ink level detection
- Built in white ink circulation
- Azon CONTI™
